GEOMETRIC DESIGN 1) GENERAL a) Relevance This document explains the procedures required to be followed by Applicants applying to the SANRAL for approvals and permissions, and guides planners and designers working on SANRAL projects. It compliments the SANRAL Policy in respect of Road Planning and Design, as well as

[Guidelines for Spacing Between Freeway Ramps](#)

Tue, 11 Jun 2019 12:12:00 GMT

The minimum acceptable distance between ramps is dependent upon the merge, diverge, and weaving operations that take place between ramps as well as distances required for signing. The Texas Roadway Design Manual (RDM) (1) recommends the use of the Highway Capacity Manual (HCM) (2) for analysis of these requirements.
