Getting Your First Budgie!

How to Tell the Age of a Budgie - Pets

Sun, 09 Jun 2019 21:19:00 GMT

Examine his head. In a young budgie, one of less than 3 or 4 months, he'll normally have a completely stripey head. As he gets older, the stripes on his face and forehead are replaced with plain patches of color or pure white. Peer into his eyes. The pupil will be black but the surrounding iris changes color.

3 Ways to See if Your Pet Budgie Is Sick - wikiHow

Tue, 11 Jun 2019 18:25:00 GMT

Place your budgie's cage in a warm, quiet spot while it recovers. While budgies are normally fine in ambient temperatures of between 60 and 70 °F (16 and 21 °C), a sick budgie needs a little more warmth. Unless your budgie is running a fever, keep its cage in a small room with a temperature of up to 90 °F (32 °C).
