

Organic Vegetable And Fruit Gardening A Beginners Guide To Growing More In Small Spaces.pdf

[Organic Vegetable Gardening For Beginners - 7 Tips](#)

Mon, 17 Jun 2019 11:44:00 GMT

Even 50 square feet is okay. Many gardeners start out too big and then end up quitting, so an important tip about organic vegetable gardening for beginners is to start small. You can grow a lot of food in 100 square feet if you plant densely. Rather than planting 10 tomato plants, plant 1 or 2 indeterminate plants and treat them well, staking them up.

Of course, if your space is even more limited or you only want to grow small amounts of fresh veggies, containers are a great option for a wide range of vegetables. Carrots , chard, herbs, kale , peppers, potatoes , radishes, salad greens , scallions, spinach , and strawberries are all adept container-growers.
