be divided into three main areas: security, comfort and entertainment. These can exist either as stand-alone systems, or as a uni?ed set-up managed by a smart control platform. A property with a home security system is ?ve times less likely to be burgled than one without. While a conventional burglar alarm will help to deter

security processes in place, as well as a Business Continuity solution. Your first defence against a threat will be your Anti Virus, your network protection and so on. When a piece of malware gets through, and it will, your next defence will be your backup solution. Having all three in place significantly reduces the risk of an attack.
